Professional summary

Focused and solution driven Mathematics and Computer Science student with strong expertise in backend logic, algorithm design, and structured system development. I build applications that prioritize efficiency, data integrity, and clean architecture. Seeking 2026 industrial attachment in a technology focused organization where I can contribute disciplined coding, analytical depth, and scalable solutions.

Education

MAMA NGINA UNIVERSITY

Ngenda, Gatundu

Bachelor of Science in Mathematics and Computer Science

2023 - Present

- Developed strong foundation in algorithms, data structures, and computational problem solving
- Applied programming skills in Python, SQL, and object oriented design through hands on projects
- Gained practical experience in database management, software development, and system modeling
- Conducted data analysis and statistical modeling to interpret real world datasets
- Collaborated on academic projects simulating real tech applications such as weather and banking systems

FREECODECAMP

Certificate in Full-Stack Development

2025 - 2025

- Built and deployed fullstack applications using HTML, CSS, JavaScript, Node.js, and Express
- Designed and managed databases with MongoDB for dynamic web applications
- Developed RESTful APIs and implemented backend logic for secure data handling
- Practiced responsive front end design with Bootstrap and modern UI frameworks
- Applied version control with Git and collaborative workflow principles
- Completed projects simulating real world web development scenarios

Experience

MICROTECH CLOUD

Nairobi, Kenya

IT Support

Dec 2025 - Present

- Resolved technical support tickets , achieving a 98% customer satisfaction rate and reducing average resolution time by 40% through proactive troubleshooting and process optimization.
- Implemented a cloud-based knowledge base for end users, decreasing repetitive inquiries by 35% and empowering clients to self-resolve common issues.

EXECO

Nairobi, Kenya

Junior Web Developer

May 2025 - Aug 2025

- Assisted in Developing and launching 5 responsive web pages using HTML, CSS, and JavaScript, improving site load times by 25% and enhancing user engagement for Execo's client projects.
- Collaborated with a cross-functional team to integrate RESTful APIs, reducing manual data entry by 40% and streamlining client workflows.

Skills

Technical: SQL, Python, CRM, AWS, HTML, CSS, JavaScript, Java, Data Modeling, Algorithms, Workflow Automation, Calculus, Linear Algebra, Probability And Statistics II, Software Development, Critical Thinking, Problem Solving, Time Management, Accountability, Teamwork
